

DeSoto Independent School District

COVID-19 RESPONSE FLOW CHART

Staff or student reports that they have

TESTED POSITIVE for COVID-19

Stoff members should notify their supervisor and students/parents should notify the compus nurse.

Person must submit a copy of their positive. lab-administered test.

Stoff may return to work with:

- a COVID-19 lob-administered test with a negative result AND
- a Return to Work Approval from DeSato ISD Human Resources

Students may return to school after:

- Symptoms have improved (i.e. absence of fever AND cough,
 AND cough,
- headache, sare throat, etc.), AND

 At least 10 colendor days have
 passed since symptoms first
 appeared.

Staff/Student is experiencing one or more

SYMPTOMS BEFORE

entry to building

Staff/Student should remain home. The campus nurse should be contacted for students and department supervisor for staff to knform of symptoms. May seek out appointment for labadministered COVID test.

Staff/Student may return to district facility when:

 Symptoms have improved (i.e. absence of fever AND cough, headache, sore throat, etc.) Stoff/Student is experiencing one or more

SYMPTOMS DURING the school day

Supervisor/Nurse will isolate person immediately from others. During this time, the person should not remove their mask. The nurse will complete an assessment.

Schools should immediately have contaminated areas cleaned.

Staff/Student may return to district facility when:

 Symptoms have improved (i.e. absence of fever AND cough, headache, sore throat, etc.) Staff/Student reports they are/were in CLOSE CONTACT with a POSITIVE CASE

Clase Contact is defined as someone who was 1) within 6 feet of on infected person (lab-confirmed) for 2) a cumulative 15 minutes or more over a 24-hour period.

Stoff may return to work with:

- a COVID-19 lab-administered test with a negative result
 AND
- a Heturn to work Approval from DeSato ISD Human Resources

Students may return to school after:

- Symptoms have improved (i.e., obsence of fever AND cough, headache, sore throat, etc.), AND
- At least 10 calendar days have passed since symptoms first appeared

Staff/Student reports someone in their home was EXPOSED to someone who tested positive OR hos symptoms.

If "someone" Is symptomatic and/or awaiting test results...

If the "someane" at home/work is asymptomatic, but just "exposed," stoff/student may return to district facility. No need to quarontine or notify staff. Monitaring symptoms is encouraged.

Updated: 8.17.2022

COVID Response Team (CRT) identifies other students or stoff who were present in the same closs/group; at that point contact tracing will reveal who has been in "Close Contact" with the person. All other persons are considered exposure only. CRT reports findings on the district form within 48 hours of receiving the report. CRT must remove the uniform than the persons of the contact of the cont

DeSoto ISD will provide the appropriate written notification for distribution to campus/department for all impacted parties in the event of three scenarios:

Isolation, Quarantine, and/or Exposure

Students CANNOT return to compus until completion of their 10 calendar day isolation or quarantine. Employees CANNOT return to work until Human Resources has provided clearance for them to do so.
